

Yuri Berestennikov

Q: He writes that your main job was to fight with believers here.

A: With whom?

Q: With believers. With Christians. I'll tell you in brief. He writes that the police needed a kind of group that would combat believers here in Petropavlovsk.

A: With believers?

Q: With believers. Is it possible that Sergei wrote in this book that you beat believers – old ladies, children – to the point of death. Murders is described here.

A: Really?

Q: You understand it's very serious.

A: Well it seems to be that this is what they now call "Image." Or, whatever he wanted to create there. Or else, who would read it?

Q: An advertisement?

A: Yes

Q: And he wrote this about you. For this offense, what would you say to him now?

A: What is offensive about it? I understand that he needed to get ahead. In order to write something that people would read, you would present the events the way Sergei did it. Americans have nothing to do but care about such bullshit. They have never had problems like we have. Our problems are simple.
