

Alexei Samokhin

A: If Irina read this book – about herself and everything – she would be very upset. But of course she doesn't have to, no way, never. The woman works hard all her life only to read a report like that. To send such a story about her all around the world.

Q: What do you think about Sergei?

A: In childhood, he was one sort of person, and something later changed him that he would write such nonsense. I don't know what to think of him. Maybe he was a normal person, was. I don't ever know what he was doing. But now that I've read this chapter, this whole book is of no interest to me, it's all lies.
